### Overview

Tracking performance data shouldn't be a manual chore. With serviceminder's **Report Subscriptions** add-on, brands and organizations can automate the delivery of key reports and data exports, saving time and ensuring consistent visibility into business operations.

Whether your franchisor has included this feature in your account or you activate it through the **Marketplace**, subscriptions allow users to receive essential metrics on a weekly or monthly basis, directly in their inbox.

This article will review:

- Report Subscriptions
- Download Subscriptions

## **Report Subscriptions**

To set up **Report Subscriptions** at the organization level, navigate to **Control Panel > Tools > Report Subscriptions**.

To configure Report Subscriptions at the brand level, navigate to **Dashboard > Tools > Performance > Report Subscriptions.** 

Once there, you have three options:

- Click Add to create a new subscription.
- Click Edit to make changes to an existing subscription.
- Click on the name of the subscription to review its details.

Report Subscriptions				
<u>Add</u>	Kind	Frequency	Next Run Date	
Edit	Download Organization Appointment Notes	Monthly	6/11/2025	
Edit	Download Branding Appointments	Weekly	6/17/2025	

You can configure the following settings for a report subscription:

- Kind: Which report is being subscribed to.
- Frequency: How often the report runs (weekly or monthly).
- Next Run Date: When you want the report to run next (it will run automatically at the set interval after that date).
- Subscribed Users: Who you want to receive the report.
