

# Accounting

03/07/2025 2:36 pm CST

Your business "vitals" - P&L's, balance sheets, operations data - are vital to your success. serviceminder supports the following integrations:

## Quickbooks Online

---

### Paro

Paro is a full-service, outsourced finance department for small businesses. They enable business owners to focus on growth by managing their bookkeeping, accounting, forecasting, and tax needs. Paro also offers franchise packages designed to efficiently support both franchisors and franchisees.

### Mission

Paro's mission is to serve as end-to-end finance support for small businesses and franchises. Our model starts by understanding your needs and current pain points in detail. The result is a prioritized set of projects designed to eliminate your back-office headaches and provide consistent insights into the financial health of your business. During franchise engagements, our focus is on optimizing processes and standardizing financial insights across multi-unit operations.

### Interested?

Once a need is identified - whether it be bookkeeping, accounting, financial modeling, tax, and/or part-time CFO support - Paro coordinates a team of professionals uniquely qualified for your business. Every professional in Paro's network is highly vetted; we currently are accepting only 7% of applicants into our talent pool. But we go the extra mile to match you with individuals who not only have the correct skillset, but also the domain expertise that can only come from working with other firms in your industry. By deploying professionals on a part-time basis at highly competitive rates, we consistently deliver cost-effective solutions.

The result? Give us a 30 minute call and we'll give hours of your life back each month and a trusted, on-demand financial advisor for the future. Just click the link below and someone will contact you shortly to discuss your needs.
