

# Other Handy Integrations

10/27/2025 2:44 pm CDT

## AirAdvice

**AirAdvice** enables contractors to quantify indoor air quality (IAQ) health, comfort, and safety issues in the home, and present equipment solutions to homeowners. With our integration, appointments in your serviceminder account can link to the report generated in AirAdvice.

### Getting Started:

1. [Create an org-level API key](#) in serviceminder and enter it in AirAdvice.
2. **Configure service agents** in AirAdvice—when a report is completed, it will match the report to the appointment assigned to that agent.

---

## Encircle

**Encircle** provides field service teams with easy-to-use documentation tools, including photo, video, and signature capture, as well as professional PDF report generation. This is especially useful for restoration work with moisture tracking and content inventories.

[Learn More...](#)

### Setting Up:

- Go to **Control Panel > Integrations > Other tab**.
- Enter your **Bearer Token** in the Encircle section and hit Save.

#### Encircle

Bearer Token

- You can now create an Encircle inspection or claim from serviceminder on the web or mobile app.
- Any pictures or documents captured in Encircle will automatically sync back to serviceminder.

---

## Rikor

**Rikor Insurance Consultancy** provides digital insurance brokerage services, managing your franchise's insurance compliance program. Protect your franchise, protect your brand.
